

## Mission Statement

The Clark Fork Veterinary Clinic is comprised of hard-working, energetic individuals that provide compassionate, high-quality care to our patients and clients in the great Tri-County area. We strive to better ourselves and our community through the services we provide each day-whether working on our smallest or largest patients. We aim to bring reasonably priced, accessible veterinary medicine to our community while practicing up-to-date, ethical veterinary medicine. We achieve this by maintaining a staff of individuals who strive for constant growth, education, and betterment of their communities.

## Livestock Services

***Comprehensive veterinary care for companion animals, equine and livestock.***

## Equipment

---

### Digital X-Ray Unit (mobile)

Our portable machine can be used anywhere a sufficient power source is available. Digital images are higher quality and are produced seconds after exposure, allowing quick diagnosis and rapid transmission by email.

Bovine Stifle

Dislocated Hip-Calf

### Ultrasound (mobile)

CFVC is equipped with 3 ultrasound units, two of which are portable. This allows us to perform reproductive ultrasound in the field. In clinic, we have the capability to perform high quality tendon, eye, and abdominal ultrasound examinations.
